## Aastrom Biosciences to Present at the 2013 Therapeutic Area Partnerships Conference

## Ixmyelocel-T Named a "Top Project to Watch" in Advanced Therapies by Elsevier Business Intelligence

ANN ARBOR, Mich., Nov. 12, 2013 (GLOBE NEWSWIRE) -- Aastrom Biosciences, Inc. (Nasdaq:ASTM), the leading developer of patient-specific expanded multicellular therapies for the treatment of severe chronic cardiovascular diseases, today announced that Nick Colangelo, President and CEO of Aastrom, will present at the 2013 Therapeutic Area Partnerships Conference on Tuesday, November 19 at 4:30 p.m. EST at the Hyatt Regency in Boston, MA. The conference organizers have selected ixmyelocel-T as a Top Project to Watch in advanced therapies.

A copy of the presentation will be available on the company's website at http://investors.aastrom.com/events.cfm.

Organized by Elsevier Business Intelligence, the 2013 Therapeutic Area Partnerships (TAP) is a three-day conference aimed at bringing together decision makers in the biopharmaceutical industry to assess the most promising drug programs available for partnering in oncology, cardiovascular/metabolic disease, neuroscience, infectious diseases, anti-inflammatory/autoimmune diseases, as well as advanced cellular and gene therapies.

## **About Aastrom Biosciences**

Aastrom Biosciences is the leader in developing patient-specific, expanded multicellular therapies for use in the treatment of patients with severe, chronic cardiovascular diseases. The company's proprietary cell-processing technology enables the manufacture of ixmyelocel-T, a patient-specific multicellular therapy expanded from a patient's own bone marrow and delivered directly to damaged tissues. Aastrom has advanced ixmyelocel-T into late-stage clinical development, including a Phase 2b clinical trial in patients with advanced heart failure due to ischemic dilated cardiomyopathy. For more information, please visit Aastrom's website at <a href="http://www.aastrom.com">www.aastrom.com</a>.

This document contains forward-looking statements, including, without limitation, statements concerning clinical trial plans and progress, objectives and expectations, clinical activity timing, intended product development, the performance and contribution of certain individuals and expected timing of collecting and analyzing treatment data, all of which involve certain risks and uncertainties. These statements are often, but are not always, made through the use of words or phrases such as "anticipates," "intends," "estimates," "plans," "expects," "we believe," "we intend," and similar words or phrases, or future or conditional verbs such as "will," "would," "should," "potential," "could," "may," or similar expressions. Actual results may differ significantly from the expectations contained in the forward-looking statements. Among the factors that may result in differences are the inherent uncertainties associated with the closing of the offering described herein, Aastrom's intended use of proceeds in connection with the offering, clinical trial and product development activities, regulatory approval requirements, competitive developments, and the availability of resources and the allocation of resources among different potential uses. These and other significant factors are discussed in greater detail in Aastrom's Registration Statement on Form S-1 described above, Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and other filings with the Securities and Exchange Commission. These forward-looking statements current views and Aastrom does not undertake to update any of these forward-looking statements or circumstances that occur after the date of this release except as required by law.
