

## Webcast Alert: Aastrom to Present Top-Line 12-Month RESTORE-CLI Results

ANN ARBOR, Mich., May 31, 2011 (GLOBE NEWSWIRE) -- Aastrom Biosciences, Inc. (Nasdaq:ASTM), the leading developer of patient-specific, expanded multicellular therapies for the treatment of severe, chronic cardiovascular diseases, today announced the following webcast:

What: Aastrom Biosciences, Inc., Presents Top-line 12-Month Results from the Phase 2b RESTORE-CLI Clinical Trial

When: Wednesday, June 1, 2011 at 4:30 pm (EDT)

Where: <http://www.aastrom.com/investor.cfm>

How:

-- The conference call will be available live in the Investors section of Aastrom's website at <http://www.aastrom.com/investor.cfm>. Please access the site at least 15 minutes prior to the scheduled start time in order to download the required audio software if necessary.

-- To participate in the live call by telephone, please call (877) 312-5881 and reference Aastrom's Top-Line 12-Month RESTORE-CLI results conference call. If calling from outside the U.S., please use the international phone number (253) 237-1173. The conference ID is 69467531.

-- A podcast will also be available after the live event at <http://www.aastrom.com/events.cfm>.

If you are unable to participate during the live call, the webcast will be available for replay at <http://www.aastrom.com/events.cfm> until Wednesday, August 31, 2011. A replay of the call will also be available until 11:59 pm (EDT) on Saturday, June 11, 2011, by calling (800) 642-1687, or from outside the U.S. at (706) 645-9291. The conference ID is 69467531.

### About Aastrom Biosciences

Aastrom Biosciences is developing patient-specific, expanded multicellular therapies for use in the treatment of severe, chronic cardiovascular diseases. The company's proprietary cell-processing technology enables the manufacture of ixmyelocel-T, a patient-specific multicellular therapy expanded from a patient's own bone marrow and delivered directly to damaged tissues. Aastrom has advanced ixmyelocel-T into late-stage clinical development, including a planned Phase 3 clinical program to study patients with critical limb ischemia and two ongoing Phase 2 clinical trials in patients with dilated cardiomyopathy. For more information, please visit Aastrom's website at [www.aastrom.com](http://www.aastrom.com).

*This document contains forward-looking statements, including, without limitation, statements concerning clinical trial plans and progress, objectives and expectations, clinical activity timing, intended product development, the performance and contribution of certain individuals and expected timing of collecting and analyzing treatment data, all of which involve certain risks and uncertainties. These statements are often, but are not always, made through the use of words or phrases such as "anticipates," "intends," "estimates," "plans," "expects," "we believe," "we intend," and similar words or phrases, or future or conditional verbs such as "will," "would," "should," "potential," "could," "may," or similar expressions. Actual results may differ significantly from the expectations contained in the forward-looking statements. Among the factors that may result in differences are the inherent uncertainties associated with clinical trial and product development activities, regulatory approval requirements, competitive developments, and the availability of resources and the allocation of resources among different potential uses. These and other significant factors are discussed in greater detail in Aastrom's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and other filings with the Securities and Exchange Commission. These forward-looking statements reflect management's current views and Aastrom does not undertake to update any of these forward-looking statements to reflect a change in its views or events or circumstances that occur after the date of this release except as required by law.*
